Assignor's Exhibit No. 1 FCC Form 345 W32AY, Boston, MA November 1993

SECTIONS 73.3597 and 73.3535 SHOWING

The proposed assignment of the construction permit for low power television station W32AY complies with the requirements of Sections 73.3597 and 73.3535 of the Commission's Rules for the following reasons:

- Boston Community Television ("Assignor") obtained the construction permit as the result of a lottery in which Assignor received "full diversity preference and no minority preference" (See W32AY Construction Permit (FCC File No. BPTTL-870702TZ)), this statement is not factually correct. Rather, Assignor was granted the construction permit as the result of a Settlement Agreement, which the Commission approved and granted on May 12, 1992 and pursuant to which Bahia Honda, Inc. and the Odessa Company, the only mutually exclusive applicants for the low power television station in question, formed the partnership Boston Community Television. See attached letter from the Commission granting the Joint Request for Approval of Settlement Agreement.
- 2. The consideration of \$30,000 for the purchase of the station W32AY construction permit does not exceed Assignor's legitimate and prudent expenses in preparing and filing its application for the subject facility. See attached Declarations of Meredith S. Senter, Jr. and Joseph E. Dunne III.
